

Education and COVID-19

By:- P. AMOL

Due to COVID-19 our world has stopped. Now one knows what to do? and how to ~~get~~ get rid from this corona viruses. In this pandemic situation. students were not able to study properly because there schools were closed since 10 months.

Now a days our Government thinking about reopening the schools. But it still going on. As schools reopen, it's important that precautions are taken both inside and outside the class room to prevent the spread of COVID-19. This article aims to support teachers with information and tips on:

- * Social distancing at school.
- * practicing health and hand hygiene
- * cleaning and disinfecting tips for the class room.
- * Actions to take if a student appears sick.

— A key lesson learned during the pandemic is the important role teachers play in ensuring that learning continues. As schools

reopen, a lot will depend on teacher to ensure that children will be able to continue their education in a safe and healthy environment; and make up for knowledge and skills that may have been lost.

As a teacher, knowing the facts will not only protect yourself but also your students. Be aware of fake information and dangerous myths about COVID-19 circulating that are feeding fear and stigma.

Some of your students might be returning to school from house holds where they heard false information about COVID-19. You will need to educate them on the facts.

Understanding COVID-19, how it spreads and how we can protect ourselves and others is an important first step in establishing classroom procedures and protocols. Students need to understand what it is in order for them to follow the rules. Listen to their concerns and ideas and answer their questions in an age-appropriate manner. Discuss the different reactions to an abnormal situation.

Make sure to use information about COVID-19 from reliable source such as UNICEF and WHO, as well as the Health authorities in your Country. By staying informed about the situation and following the recommendations of public health experts, we can protect our own wellbeing and those around us.

Actions to take if one of your students appears to be sick.

Identifying COVID-19 symptoms.

The most common symptoms are fever, cough and tiredness. Other symptoms can include shortness of breath, chest pain or pressure, muscle or body aches, headache, loss of taste or smell, confusion, sore throat, congestion or runny nose, diarrhea, nausea and vomiting, abdominal pain and skin rashes.

School preparations and what to do if one of your students displays any of the symptoms.

* provide the sick student with a medical mask if available.

* consider daily screening for body temperature, and history of fever or feeling feverish in the previous 24 hours. on entry into the building for all staff, students and visitors to identify persons who are sick.

* Develop a standard of operation if temperature screening is required.

* share procedures ~~with~~ with parents and students a head of time.

What student will do when He/she feel illness.

Students should remember that "Health is wealth" because if health is good all is well.

So, ^{we} concluded. that if schools are reopen they should not run ^{as} before they have new rules. So, every one. mind that this pandemic situation not completed yet. we should wait for corona vaccine. If schools re-open still we should wear mask, maintain social distance and keep washing our hands time to time.
